

# Good. Better. Best.

We offer high-quality products for different budgets and applications. Our C & I products are BAA compliant. Spec Grade products are 100% manufactured in America, BABA compliant. The ability to mix and match the two categories, creates endless opportunities. Explore the possibilities with QSSI Family of Brands.

**Good.**  
C & I Products

**Better.**  
C & I and Spec Grade Products

**Best.**  
Spec Grade Products

Buy American Act Compliant (BAA) products comply as “Domestic end products” manufactured in the U.S. that are “Commercially available off-the-shelf” (COTS) items. These product families are manufactured for orders in one of our six U.S. facilities.

Enacted to protect and promote our American manufacturers, the BABA (Build America, Buy America) Act sets stricter requirements for federally funded projects in the United States. Our spec-grade luminaires are made 100% in the USA, from raw materials to finished goods.
